EDUCATION

- 2023 - 2024 - Sela College
Software Development Course:
Graduated with a GPA of 96 in an intensive full stack program.
- 2016 - 2019 - Yehud
Comprehensive High School

SKILLS

- Languages:**
Python, TypeScript, Dart, HTML & CSS
- Frameworks :**
FastAPI, Node.js, React, Flutter
- Infrastructure & Databases:**
Linux, Ansible, shell scripting, PostgreSQL, MongoDB
- Development Tools:**
Git/GitHub, Postman, Cursor, Claude (Skills, AI-assisted development)
- Technical Skills:**
API development & integration, system design & architecture, database management, automation, troubleshooting & log analysis

OSHER ELIKAMEL

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production systems across backend, frontend, and infrastructure layers. Works with **Python**, **Node.js**, **React**, and **Flutter**, with a focus on system integration, automation, and Linux-based environments. Leverages AI-assisted development tools to accelerate delivery and improve code quality.

EXPERIENCE

- PayTag - Full Stack Developer** DEC 2025 - PRESENT
 - Extend and maintain a production **Flutter/Dart** self-checkout kiosk application, including integrations with internal services and external APIs
 - Maintain and extend an Ansible-based automation system, using shell and **Python** scripts, to deploy and configure software across client machines remotely
 - Work in **Linux** environments, handling system configuration, caching, and log analysis to troubleshoot production issues
- Gilon - Full Stack Developer** NOV 2024 - DEC 2025
 - Sole developer responsible for building a security algorithm into a full web-based information security platform
 - Designed and developed the platform across a multi-layer **microservices architecture** using **Python/FastAPI**, **Node.js**, and **React**
 - Created technical documentation covering architecture, development processes, and research findings
- Vayyar - QA Tester** JUL 2024 - NOV 2024
 - Tested radar and camera sensors in automotive environments, collaborating with PMs, QA engineers, and developers to design and test plans

MILITARY SERVICE

- Artillery Corps**
Sergeant 2020-2022
Served as a howitzer team leader in the Artillery Corps. Led a team in operational activities and managed logistical planning and equipment readiness
